

## Safety feature video by asecos

**Gründau, September 1<sup>st</sup>, 2016** – A safety storage cabinet manufactured to BS EN 14470-1 provides a series of safety measures, which protect the stored hazardous materials against fire.

asecos is pleased to present an information video on safety features, demonstrating how an EN14470 Part 1 fire resistant cabinet works. You will see how the cabinet performs when exposed to fire and as temperatures increase what exactly happens inside the cabinet.

asecos is the leading European manufacturer of fire resistant cabinets and has the best information available to support you when it comes to the storage of hazardous materials.

Please view the video within our YouTube channel [www.youtube.com/asecosChannel](http://www.youtube.com/asecosChannel) , where you will also see a vast library of videos explaining by demonstration the key features of our entire range.
