

asecos launches new website and Hazmat Guide

Gründau, January 13th 2016. asecos – the leading German manufacturer of safety storage cabinets for flammables, chemicals, acid and compressed gases, launched its newly revamped website. This redesigned website gives quick and easy access to essential information and features, that offer a more comprehensive understanding of the Company's innovative products and services. With the “asecos academy” the comprehensive service section provides valuable expert information, fire awareness training, laws, regulations, catalogues and brochures as well as video material.

By implementing the new website asecos also released its new catalogue of professional storage and handling of hazardous materials. Featuring more than 2,500 items for your safety, the 500-page, full-colour glossy catalogue is a complete safety resource guide for industry, academic, science and research. The catalogue is formatted for easy product look-up and is organized by different categories such as: safety and combi safety storage. The online catalogue will also be available on the new website www.asecos.co.uk.
