

## **Now available: asecos summary of the current British Health and Safety legislation for the Storage of Hazardous Substances**

**Gründau, 25<sup>th</sup> April 2017** – The first edition of the summary provides all important key facts of British health and safety legislation on Hazardous Materials and how to increase the safety in organisations through risk assessment and safe storage of dangerous materials.

This brochure offers an overview of the DSEAR Regulations 2002, HSE key facts, HSG 51 and 71, BS EN 14470 parts 1 and 2, Corporate Manslaughter Act 2007 and the Health and Safety Offences Act; as well as information about compressed gas cylinder cabinets and ventilation.

Incidents occur every day; every employer is responsible for the safety of their employees. It is essential that safety officers and occupational safety specialists are kept up-to-date with the latest legislation and guidance. The asecos Hazmat Supplement can help you begin the process of improving your storage of Hazardous Materials

## **asecos GmbH**

asecos is the leading German manufacturer of highly-insulated safety storage cabinets for flammables. For more than 20 years asecos is actively involved in international associations and working groups to develop innovative and sustainable products to meet the challenges of storing hazardous materials in 21st century laboratories and industrial facilities. asecos cabinets are built according to European and American standards and can be integrated into casework or used as free-standing storage solutions. In addition asecos also offers many products for the safe handling of chemicals as well as a variety of extraction systems. Abroad asecos is represented by own subsidiaries in the Netherlands, France, Spain and the UK and maintains a global network of specialized dealers and distributors.
